## Conditions govering the use of equipment requiring registration and inspection

To be completed by the authority granting approval  Correct as of: 04/2019	
1. Conditions	
govering the operation of the equipment specified (page 1)	
2. Flammable liquides	
2.1. Storage	
□ In the hall Quantity (max. daily requirement)	
(storage of further stock in hazardous goods store)	
□ Outdoors ———————————————————————————————————	
(5m away from the hall)	
3. General stipulations	
3.1. Storage location	
Smoking is strictly prohibited in the storage location. Adequate signage must be provided. Suitable hand-held fire extinguishers must be available.	
3.2. Conditions relating to operation	
Pieces of equipment which are operated or demonstrated with flammable liquids must be fitted with non-combustible collection vessels at the filling points and at the places where liquids can escape. Any flammable liquids which have run out must be emptied from the collection vessels immediately and safely disposed of in order to avert the risk of fire or explosion.	
3.3. Adding the liquids	
Da beim Einfüllen der Flüssigkeiten ein besonderes Gefahrenmoment eintritt, ist hier mit größter Sorgfalt und Vorsicht zu verfahren. Das Gerät/die Maschinen muss ausgeschaltet, abgekühlt sein. Der Bereich muss für die Befüllung abgesperrt werden.	
3.4. Storage containers	
As a basic principle, the amount required for the day must be stored in closed, unbreakable containers and must not be accessible to unauthorised persons. The storage containers must be kept in non-combustible receptacles.	
3.5. Empty containers	
Empty containers in which flammable liquids have been kept my not be held or stored at the booth or in the hall.
